KICC Challenges and

~~Opportunities~~

- Dynamic operational situation requires implementation flexibility
 - Combat operations continue / force protection
 - Troops & HQs locations remain in flux
- Numerous SWA C4 efforts require synchronization
 - CENTCOM, Service, JTF, & Coalition requirements & funding
- CFLCC and CJTF-7 are continuing coordination of detailed site by site preparation and cutover schedules.
- KICC may assist coordination of SWA C4 requirements
 - CENTCOM appointed CFLCC / ARCENT as Communications Integrator (CI) for C4 activities at most sites in SWA
 - CFLCC requested KICC presence in theater to serve as the integrator of C4 commercialization activities
 - CJTF-7 requested KICC presence in Iraq to assist with management of existing projects

- Side Bars
 - Predecessor Tasks: i.e. CENTAF TCF
 - Satellite Terminals: Site Prep, Network, Priority
 - Increment One Site Plans / Generators
- Decisions
 - Helipad
 - VoIP (NIPR)
- Concurrence
 - Microwave locations
 - Vic OSP (Lake)
- Support
 - People
 - Terrain – TCFs & Towers & Offices

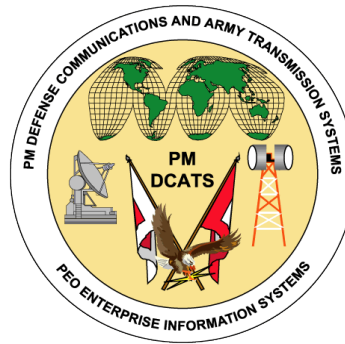

Vic Base "KICC-ville" FEB 2004

Priorities discussed for subsequent KICC funding increments – FY04 and beyond

Presidential Palace - MAY 2003

- Buyout of selected COTS equipment left in system
- 4 star MNC – Iraq HQs information systems upgrades
- Second increment of CMN funding for 2nd MND (not Army \$)
- NOSC upgrades
- Additional OSP, transmission, & infrastructure upgrades
 - at Victory, Anaconda & other enduring Iraqi sites
 - for RSOI & other Kuwaiti sites

KICC Discussion / Questions

KICC employs a deliberate process to engineer, procure, manufacture, test, transport, test in theater, and install equipment by site sets
